## Fight for Madero Land

By: Ashmar Mandou

A group of residents in the Little Village neighborhood will be holding a meeting

on Thursday in front of Madero School in an effort to keep the 11-acre land public. The residents want a new CPS Washburne

Career Technical Education (CTE) High School on the land owned by CPS at 31<sup>st</sup> and Kedzie as opposed to St. Anthony's Chicago

Southwest Development Corporation's Focal Point Project or Cinespace Studios. "Why would Chicago and Illinois

taxpayers fork over \$110 million of our hard earned money for the St. Anthony boondoggle, white elephant for-profit project," asked Little Village resident Lucky Camargo. It has been nearly ten years since Madero operated as a school; since then St. Anthony Hospital's Chicago Southwest Development Corporation's Focal Point Project has shown interest in acquiring the land, but has failed to raise the funds and meet the City of Chicago's criteria to obtain the 11-acre site. "Instead Chicago and Little Village residents want our public CPS land to remain public

and build a new 21st century CPS CTE High School to serve all the youth of our city-not fill the pockets of for-profits like St. Anthony's Chicago Southwest Development Corporation" stated Dr. Howard Ehrman, who has worked and lived in the neighborhood for 50 years. "We want a new Washburne Chicago Public High School to give our children and grandchildren a career in renewable energy, information technology, media and arts, health care, construction, architecture, and prepare them for college." Alderman Mike Rodriguez is expected to attend the meeting.

## Uber Moves to Old Post Office

By: Ashmar Mandou

Uber Technologies will officially call the Old Main Post Office home, according to reports earlier this week. The company signed a 10-year lease and will occupy 463,000 square feet in the building and plans to move in January of 2020. Construction is set to begin in early spring. "Uber is excited to deepen

its roots in Chicago," Uber spokesperson Kelley Quinn said in a written statement. "The city continues to attract the top talent that Uber needs to continue to thrive, and we remain committed to working together to have a positive impact in the local community." Chicago will be the company's second largest locations behind

its headquarters in San Francisco. Uber will join

other tenants including Walgreens, Ferrara Candy,

Home Chef, the Chicago Metropolitan Agency for

Planning and ad firm Abelson Taylor.

## Dove Dermatologist Weighs in on the latest Body Foundation Trend

By: Dove Dermatologist and Beauty Expert Dr. Alicia Barba  
**Properly Prep Your Skin:**

Before applying any form of make-up make sure your skin is properly

prepped -i.e. removing any dead skin cells, dirt, etc. I recommend exfoliating your body as it's the easiest method and allows for moisturizers to penetrate the skin better. Be gentle when exfoliating in the shower and remember

that exfoliation and moisturization should always go hand in hand. I recommend a gentle cleanser, like the Dove Gentle Exfoliating Body Wash. It has ultra-mild cleansing agents mixed with NutriumMoisture to

hydrate while cleansing. **Don't Skip the Sunscreen:** Always a must have! Your skin is the largest human organ, and it is the most visible. No matter what season we're in, know that the skin constantly absorbs ultraviolet aging rays like a sponge, which then damage your DNA, collagen and cause pigment abnormalities. Many people of color tend to believe they're invincible when it comes to the sun and needing sun protection, but you should wear sunscreen every day! **Pro Tip:** Opt for a body foundation with SPF infused, there's many new options out there to not skip out on the SPF. **Remove Foundation with Ease:** Simply treat your body the way you would

treat your face: with caution and care. Sleeping in your makeup can cause all sorts of negative effects on your skin such as body acne, breakouts and clogged pores. Makeup remover wipes aren't enough - even though the most tempting to use. Wipes only remove whatever is on the surface of the skin, which means pores and everything below

the skin is left neglected. **Pro Tip:** Choose a strong cleanser that hydrates your skin while effectively removing all make-up. I recommend the Dove Beauty Bar, its cleansing formula is perfect for make-up removal and its  $\frac{1}{4}$  moisturizers will leave your skin soft, smooth and glowing, without stripping away skin's moisture like ordinary soap does!

## RPM Construction Careers Networking Fair Underway

The CTA and Walsh-Fluor Design-Build Team announced an innovative new series of Red and Purple Modernization (RPM) Construction Careers Networking Fairs to diversify the project workforce and reach disadvantaged workers and communities throughout

Chicago with information about training and career opportunities that can lead to work on RPM, other CTA projects and other Chicago construction projects. RTA and Walsh-Fluor will host the first event on Wednesday, Aug. 28, at JLM Center, 2622 W. Jackson Blvd.,

from 9:30 a.m. to 1 p.m. Pre-registration is recommended because space is limited at <https://rmpcareernetworking.eventbrite.com>. The Red Purple Modernization (RPM) Phase One project is the CTA's largest-ever capital improvement project. Participants at the

RPM Construction Careers Networking Fair will be able to:

- Learn more about what kind of jobs will be available on the project,
- How to qualify and apply

for jobs that will be created  
• Network with union representatives and job assistance agencies to learn how to become eligible and ready to work on construction

jobs throughout Chicago, including apprenticeship opportunities.  
For more information about the CTA's Red-Purple Modernization project, go to [transitchicago.com/rpm](http://transitchicago.com/rpm).

# City of Chicago Prepares for Back to School Safe Passage Routes

The City of Chicago launched a multi-agency effort to begin cleaning up Safe Passage routes across the City before students return for classes. To ensure the routes are safe and passable for students and Safe Passage workers, the City will dispatch crews from the Department of Streets and Sanitation (DSS) and Department of Transportation (CDOT) to conduct tree trimmings,

remove graffiti and debris, and clean up vacant lots along the routes. These neighborhood cleanups will occur along nearly 150 Safe Passage routes in communities across the city over the next two weeks, focusing first along the Pulaski Corridor in West Garfield Park, where Safe Passage will return early as part of Mayor Lightfoot's Keeping Our Communities Safe Initiative. All school

year long, at more than 150 schools throughout Chicago, the Chicago Public Schools (CPS) Safe Passage program enlists the help of community workers to provide safe routes for students while traveling to and from school. To request city services or report a sanitation issue in your community, call 311 or visit <http://www.chicago.gov/dss>.

**cta** WALSH FLUOR DESIGN-BUILD TEAM

— RPM PHASE ONE —  
**CONSTRUCTION CAREERS  
NETWORKING FAIR**

AUGUST 28, 2019 | 9:30AM - 1PM  
JLM CENTER | 2622 W. JACKSON BLVD.  
CHICAGO, IL 60612

Construction of the Red Purple Modernization (RPM) Phase One project will begin this fall and continue through 2025. In anticipation of upcoming job opportunities, the Walsh-Fluor Design-Build Team is hosting its first workforce networking event for individuals interested in construction careers that could lead to working on RPM Phase One.

Network with union representatives and job assistance agencies and learn how to become eligible to work on construction projects throughout Chicago like RPM Phase One.

Space is limited!

## Gut-Brain Connection Helps Explain How Overeating Leads to Obesity

Eating extra servings typically shows up on the scale later, but how this happens has not been clear. A new study published in the *Journal*

*of Clinical Investigation* by a multi-institutional team led by researchers at Baylor College of Medicine reveals a previously unknown gut-brain connection that helps explain how those extra servings lead to weight gain. Mice consuming a high-fat diet show increased levels of gastric inhibitory polypeptide (GIP), a hormone produced in the gut that is involved in managing the body's energy balance. The study reports that the excess

GIP travels through the blood to the brain where it inhibits the action of leptin, the satiety hormone; consequently, the animals continue eating and gain weight. Blocking the interaction of GIP with the brain restores leptin's ability to inhibit appetite and results in weight loss in mice. Further experiments showed that if the animals were genetically engineered to be leptin deficient, then the treatment with the specific

monoclonal antibody did not reduce appetite and weight in obese mice, indicating that GIP in the brain acts through leptin signaling. In addition, the researchers identified intracellular mechanisms involved in GIP-mediated modulation of leptin activity. Although more research is needed, the researchers speculate that these findings might one day be translated into weight loss strategies that restore the brain's ability to respond to leptin by inhibiting the anti-leptin effect of GIP.

# Lucha por el Terreno de Madero

Por: Ashmar Mandou

Un grupo de residentes del barrio de la Villita tendrán una junta el jueves, frente a la Escuela Madero, en un esfuerzo por conservar el terreno público, de 11 acres. Los residentes quieren nueva CPS Washburne Career Technical Education (CTE) High School en el

terreno propiedad de CPS, en 31st y Kedzie, en lugar del Proyecto Focal Point de St. Anthony's Chicago Southwest Development Corporation o Cinespace Studios. "¿Por qué los contribuyentes de Chicago e Illinois tendrían que pagar más de \$ 110 millones de nuestro dinero duramente ganado para el proyecto de lucro del elefante blanco de St. Anthony?" preguntó la residente de La Villita Lucky Camargo. Han sido casi diez años que Madero ha operado como escuela; desde entonces el Proyecto Focal Point de Chicago Southwest Development Corporation del Hospital St. Anthony ha mostrado interés en adquirir el terreno, pero no ha podido conseguir los fondos y

cumplir con los requisitos de la Ciudad de Chicago para obtener el sitio de 11 acres. "En cambio, los residentes de Chicago y La Villita quieren que nuestros terrenos públicos de CPS sigan siendo públicos y construyan una nueva escuela secundaria CPS CTE del siglo XXI para que sirva a los jóvenes de nuestra ciudad, no para que llene los bolsillos de organizaciones de lucro como Chicago Southwest Development Corporation de St. Anthony" declaró el Dr. Howard Ehrman, quien ha trabajado y vivido en el barrio por

50 años. "Queremos una nueva Secundaria Pública Washburne Chicago para dar a nuestros hijos y nietos una carrera en energía renovable, tecnología de información,

medios de comunicación y arte, cuidado de salud, construcción, arquitectura y prepararlos para la universidad". Se espera que el Concejal Mike Rodríguez asista a la junta.

The New **NLEI ENERGIA PROJECT** provides participants with solid foundational industry knowledge and technical skills for successful entry into energy occupations and fields.

**Highlights of this short-term program includes:**

- Classroom instruction with employers and energy experts
- Student support
- Recognized industry certification
- Strong safety & OSHA 10 certification
- CPR and First Aid certification
- Academic, technical and lifetime career skills
- Field experiences in either the technical, business or customer engagement paths
- Job Placement.

Consistent with NLEI's history, the **ENERGIA PROJECT** was developed directly with the industry.

## La Conexión Cerebro-Intestino Ayuda a Explicar como Comer en Exceso Conduce a la Obesidad

Comer porciones extra se refleja más tarde en la báscula, pero como esto ocurre, aún no está claro. Un nuevo estudio publicado en *Journal of Clinical Investigation* por un

equipo multiinstitucional conducido por investigadores de Baylor College of Medicine, revela una conexión cerebro-intestino previa que ayuda a explicar

como esas porciones extra llevan al aumento de peso. Los ratones que consumieron una dieta alta en grasa mostraron niveles de polipéptidos inhibitorios gástricos (GIP), un

hormona producida por el intestino que está involucrada en atender el balance de energía del cuerpo. El estudio reporta que el exceso de GIP viaja a través de la sangre

al cerebro donde inhibe la acción del leptin, la hormona de la saciedad; consecuentemente, los animales continúan comiendo y ganando peso. Bloquear la interacción del GIP con el cerebro restaura la capacidad del leptin de inhibir el apetito y dio como resultado la pérdida de peso en los ratones.

Experimentos subsecuentes mostraron que si los animales fueran genéticamente programados para ser deficientes en leptin, el tratamiento con anticuerpos monoclonales específicos no reduciría el apetito y el

peso en los ratones obesos, indicando que el GIP en el cerebro actúa a través de las señales del leptin. Además, los investigadores identificaron mecanismos intracelulares involucrados en la modulación mediada de GIP de actividad leptin. Aunque se necesitan más investigaciones, los investigadores especulan que estos hallazgos pueden un día ser traducidos en estrategias de pérdida de peso que restaren la habilidad del cerebro para responder al leptin, inhibiendo el efecto anti-leptin del GIP.

## Ortiz Effort to Encourage Diversity of Student-Trustees at University of Illinois System Signed into Law

Undocumented students at the University of Illinois will have a voice in their university's decisions under legislation passed by state Rep. Aaron Ortiz, D-Chicago, expanding student body representation among the university board of trustees which is now law. "Undocumented students pay taxes just like everyone else. They pay tuition and fees just like everyone else. So they deserve the ability to run for leadership positions within the university and be a voice for their classmates

and community," said Ortiz. "I'm proud to have carried this legislation on behalf of the University of Illinois, ensuring that every voice is welcomed and heard when decisions are being made." Ortiz championed Senate Bill 172, which will change current requirements to demonstrate Illinois residency to be considered eligible to serve as a student-trustee on the Board of Trustees at the University of Illinois. The legislation is a response to an undocumented

University of Illinois-Chicago (UIC) student, who under previous law didn't qualify to run for a student-trustee position because of a lack of valid voter registration. Ortiz's new law will require students wishing to be elected as student-trustee to provide proof of their Illinois home for at least the last six months, and only one of the following: current, valid Illinois driver's license or Illinois Identification Card; or valid, Illinois voter registration.

## Esfuerzo del Rep. Ortiz por Fomentar la Diversidad de Estudiantes-Administradores en el Sistema de la Universidad de Illinois Convertido en Ley

Los estudiantes indocumentados de la Universidad de Illinois tendrán una voz en las decisiones de la universidad bajo la legislación aprobada por el Rep. Aarón Ortiz, D-Chicago, ampliando la representación del cuerpo estudiantil entre la Junta de Fideicomiso universitario, que ahora quedó convertida en ley. Los estudiantes indocumentados pagan impuestos como todo el mundo. Pagan colegiatura y cuotas como todos. Por lo tanto merecen poder correr para posiciones

de liderazgo dentro de la universidad y ser una voz para sus compañeros y la comunidad", dijo Ortiz. "Estoy orgulloso de haber llevado esta legislación a nombre de la Universidad de Illinois garantizando que toda voz es bienvenida y escuchada cuando se toman decisiones". Ortiz encabezó el Proyecto 172 del Senado que cambiará los requisitos actuales para demostrar la residencia de Illinois y ser considerado elegible para servir como estudiante-administrador en la Junta de Fideicomiso

dela Universidad de Illinois. La legislación es una respuesta a un estudiante indocumentado de la Universidad de Illinois-Chicago (UIC), que, bajo a ley anterior, no calificó para correr para una posición de estudiante-administrador por la falta de un registro de votantes válido. La nueva ley del Rep. Ortiz pedirá que los estudiantes que deseen ser elegidos para estudiante-administrador presenten prueba de su hogar en Illinois por los menos por seis meses antes y solo uno de los siguientes documentos: Licencia de manejo de Illinois, actual y válida, o una Tarjeta de Identificación de Illinois, o un registro válido de votantes de Illinois.

# Comcast Announces Expansion of Internet Essentials in Chicago

Comcast Corporation and Chicago Public Library (CPL) at the Austin Library Branch announced the largest ever expansion of Internet Essentials in the City of Chicago. Comcast will significantly expand eligibility for its program, the nation's largest, most comprehensive, and most successful broadband adoption initiative, to all low-income households in Chicago. The expansion greatly expands the number of low-income households eligible

for Internet Essentials, including households with people with disabilities and seniors. Building on an existing partnership with Chicago Public Library, Comcast is also dedicating \$250,000 to open eight new digital media labs for teens and offering additional digital skills education programming to seniors and other populations by the end of 2019. Both commitments by the City and Comcast are designed to help residents build digital

skills and Internet literacy, and increase adoption of Internet services in the areas of the city with the greatest need. To apply for the program, low-income applicants need to show they are participating in one of more than a dozen different government assistance programs. A full list can be found at [www.internetessentials.com](http://www.internetessentials.com). To date, the program has connected more than 95,000 homes representing approximately 380,000 people in Chicago.

## Uber se Cambia a la Antigua Oficina de Correos

Por: Ashmar Mandou

Uber Technologies llamará oficialmente su hogar a la Antigua Oficina Principal de Correos, de acuerdo a reportes de principio de esta semana. La compañía firmó un contrato de 10 años y ocupará 463,000 pies cuadrados en el edificio y planea cambiarse para enero del 2020.

La construcción está programada para comenzar a principios de la primavera. "La compañía Uber se siente entusiasmada de profundizar sus raíces en Chicago" dijo el vocero de Uber, Kelley Quinn, en una declaración escrita. "La ciudad continúa atrayendo los mejores talentos que Uber necesita para continuar floreciendo y seguimos comprometidos

a trabajar juntos para tener un impacto positivo en la comunidad local". Chicago será el segundo local más grande de la compañía después de sus oficinas en San Francisco. Uber se unirá a otros inquilinos, incluyendo Walgreens, Ferrara Candy, Home Chef, Chicago Metropolitan Agency for Planning y la firma publicitaria Abelson Taylor.

## La Ciudad de Chicago se Prepara para las Rutas de Pase Seguro para la Escuela

La Ciudad de Chicago lanzó un esfuerzo de agencias múltiples para comenzar a limpiar las rutas de Pase Seguro de la Ciudad antes de que los estudiantes regresen a clases. Para garantizar que las rutas son seguras y pasables para los estudiantes y los trabajadores de Pase Seguro, la Ciudad despachará cuadrillas del Departamento de Calles y Sanidad (DSS) y del Departamento de Transporte (CDOT) para

podar árboles, limpiar graffiti y basura y limpiar los lotes vacantes a lo largo de las rutas. Estas limpiezas se llevarán a cabo a lo largo de cerca de 150 rutas de Pase Seguro en comunidades de la ciudad en las próximas dos semanas, enfocadas primero en el Corredor Pulaski en West Garfield Park, donde los Pases Seguros regresarán primero como parte de la Iniciativa Manteniendo a Nuestras Comunidades Seguras de la Alcaldesa Lightfoot.

Todo el año escolar, en más de 150 escuelas de Chicago, el programa Pase Seguro de las Escuelas Públicas de Chicago (CPS) recluta la ayuda de trabajadores de la comunidad para ofrecer rutas seguras para los estudiantes mientras viajan hacia la escuela y de regreso de ella. Para pedir servicios de la ciudad o reportar un problema de sanidad en su comunidad, llame al 311 o visite <http://www.chicago.gov.dss>.

## Two Confirmed Cases of Legionnaires' Disease Linked to AmericInn in Schaumburg

The Illinois Department of Public Health (IDPH) recently linked two confirmed cases of Legionnaires' disease to the AmericInn by Wyndham Hotel in Schaumburg, Illinois, and is currently investigating the cluster with the Cook County Department of Public Health (CCDPH). Both confirmed cases reported

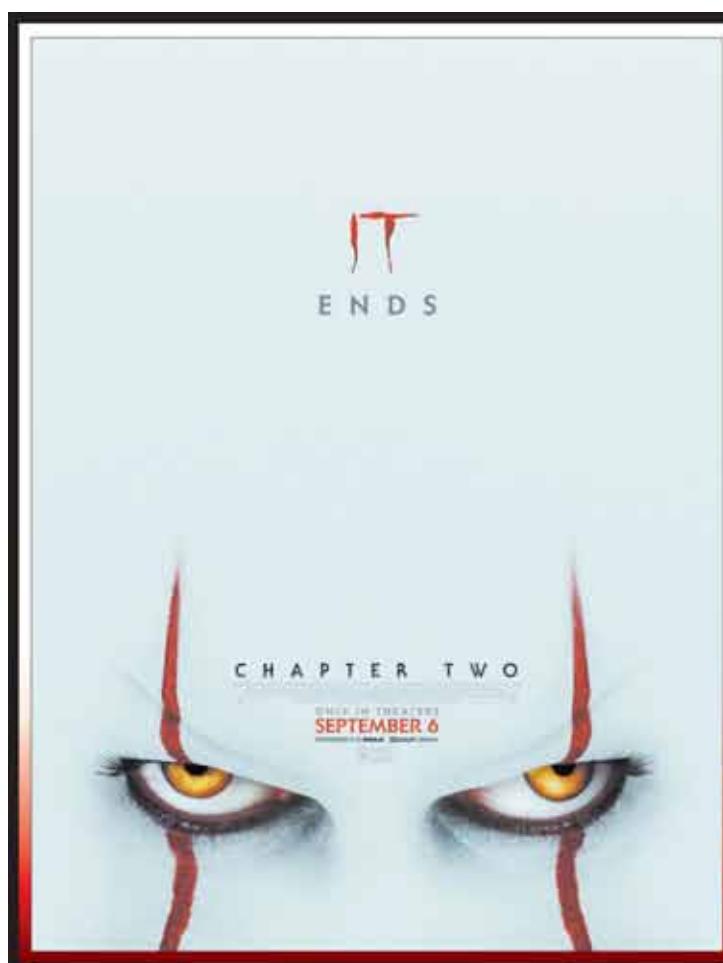

use of water in their guest rooms, the hot tub, and pool during hotel stays in July and August 2019. IDPH and CCDPH conducted an environmental investigation of the hotel on August 15, 2019. The AmericInn voluntarily closed its hot tub and pool during the investigation and they will remain closed until the investigation is

completed. Legionnaires' disease is a serious lung infection (pneumonia) that people can get by breathing in small droplets of water containing Legionella bacteria. It is not transmitted person-to-person. Outbreaks are most commonly associated with buildings or structures that have complex water systems, like hotels, hospitals, long-term care

facilities, and cruise ships. In 2018, Illinois reported 510 cases of Legionnaires' disease statewide with 242

confirmed to date in 2019. Additional information about Legionnaires' disease can be found on

the IDPH website and the Centers for Disease Control and Prevention website.

# TERRENOS DE VENTA EN ECUADOR

**DOBLE SU DINERO INVIRTIENDO EN  
GANADERIA, CACAO, TECA O BALSA**

**Aproveche esta oportunidad de hacer rendir su dinero  
en forma segura y rentable.**

## **Plusvalía - Alto retorno a su inversión**

TERRENOS con agua abundante, con 6 puntos de agua y dos ríos,

Excelente oportunidad de invertir en agricultura orgánica. Los terrenos están rodeada de árboles de balsa. Ubicación inmejorable, se encuentra cerca de la carretera principal en el pueblo San Pedro cerca a El Triunfo, provincia del Cañar a tan solo 1 hora de Guayaquil y 3 horas a Cuenca. La tierra siempre gana plusvalía. Su valor siempre sube a pesar de cualquier circunstancia económica del país.

La agricultura es la mejor inversión en este momento. El rendimiento de su inversión supera con creces los intereses bancarios. Es una gran oportunidad para jóvenes o personas que estén pensando en retirarse con deseos de poner a trabajar su dinero con ganancias seguras.

El clima es perfecto para sembrar árboles de alto rendimiento económico como la teca y balsa y plantaciones comerciales de cacao, yuca, banano o bien pastizales para ganadería. Las opciones son innumerables. Su inversión puede ser en muchísimas plantaciones de alto valor y rendimiento.

Las plantaciones de árboles necesitan poca supervisión durante su crecimiento, por ello es que esta es una oportunidad inmejorable para residentes en el extranjero.

No es necesario el cuidado constante de las plantaciones.

Es una oportunidad de inversión inmejorable. Ud. puede recuperar su inversión en tan solo un par de años con una plantación de cacao o bien a lo más en 4 años si es una plantación de balsa.

Por su ubicación, la finca es también susceptible de lotificación y urbanización.

### PRECIO PARA VENDERSE

Esta hermosa casa está situada en el corazón de la próspera comunidad de La Colina en las afueras de Quito, a pasos del centro comercial San Rafael. Constituye un oasis para cualquier persona que esté buscando tranquilidad, clima excelente y protegido. La casa tiene hermosos jardines y terreno extra en la parte de atrás. Esta casa tiene 5 años de construida y cuenta con 11 habitaciones y 11 baños, 9 están alquiladas en la actualidad y 2 suites para los dueños. Se encuentra dentro de una comunidad privada de gran demanda. La casa tiene una entrada de porcelana, ventanas de piso a techo con vista a la ciudad, amplia sala y comedor, cocina equipada, garaje para tres autos, escalera de caracol, tragaluces y un jardín lujoso con terreno adicional para expansión, si lo desea.

Construida en un vecindario de gran plusvalía, frente a la Universidad ESPE, completamente segura con guardería las 24 horas. La casa está situada en un punto alto de la comunidad La Colina y ofrece magníficas vistas. En los alrededores hay comercios y vida nocturna en un agradable vecindario. Para más información y fotos por favor visite nuestro web site.
