City Announces Expansion of 'Chicago Connected'

Mayor Lori E. Lightfoot announced a series of key developments to the 'Chicago Connected' initiative on the anniversary of the first-of-its-kind program, including an extension of internet service for graduating CPS seniors attending City Colleges of Chicago in the fall, the launch of a digital literacy training platform, and a one-year impact review issued by Kids First Chicago. These announcements build on Mayor Lightfoot's launch of 'Chicago Connected,' an initiative to provide free high-speed internet access to 100,000 Chicago students and their households for four years, on June 25, 2020. In April 2020, Kids First Chicago, an education

advocacy group and core 'Chicago Connected' partner, collaborated with the Metropolitan Planning Council to release a report titled 'Digital Equity in the Coronavirus Era.' The report highlighted the stark reality of the digital divide, indicating that 1 in 5 children in Chicago lacked access to reliable in-home internet, with even larger gaps in predominately Black and Latinx neighborhoods on the city's South and West sides. 'Chicago Connected' was launched to address this critical need.

El Alcalde de Berwyn, Robert J. Lovero declaró, “Este proyecto mejora considerablemente el paisaje urbano al mismo tiempo que se incorporan elementos de gestión de aguas pluviales en el diseño para abordar los atascos de alcantarillado en residencias y negocios a lo largo de la calle 34th, de Harlem Ave. a Ridgeland Ave. Este corredor tiene mucho tránsito, con más de 4,000 vehículos utilizando esta ruta al día, brindando acceso al Hospital MacNeal y a las rutas PACE localizadas en la Ave. Harlem, la Ave. Oak Park y la Ave. Ridgeland”. Los adoquines permeables y los jardines de lluvia capturarán el agua que corre y contaminantes de las carreteras y aceras. La Ciudad de Berwyn ha tomado un enfoque activo hacia la implementación de infraestructura verde en cada proyecto y urbanización. El Plan Conceptual de Aguas Pluviales de la Calle 34th fue un proyecto altamente recomendado para implementar como parte del Plan de Manejo de Aguas Pluviales de la Ciudad. media piece titled "Before and After." Her piece, which depicts a scene from before and after the COVID-19 pandemic in Chicago, will be displayed for one year in the U.S. Capitol alongside winning artwork from students from across the United States. "I congratulate Katherrin Amber Billordo for winning the 2021 Congressional

Art Competition in our district. This has been a very difficult year for everyone. Students have been stuck at home but many, like Katherrin, developed their creativity and created art that reflects these challenging times. The winning piece, 'Before and After' does just that," said Congressman Jesús "Chuy" García. Billordo's message to other teenagers is, "Anything is possible.

Take advantage of Chicago's resources. Don't be afraid to try something new, go after what you're passionate about, and go get vaccinated if you haven't already!"

State Files Lawsuit Against Dynergy Midwest Generation, LLC

Attorney General Kwame Raoul and Vermilion County State's Attorney Jacqueline Lacy filed a lawsuit against Dynergy Midwest Generation, LLC (Dynergy) over the unlawful disposal of coal ash at the site of the former Vermilion Power Station, which led to groundwater pollution surrounding the coal power plant. Raoul and Lacy also filed a motion to enter an agreed interim order that requires Dynergy to, among other things, create a safety emergency response plan

for the site. Raoul's lawsuit is based on a referral from the IEPA. Dynergy owns the property in Oakwood, Illinois where the coal-fired Vermilion Power Station operated until November 2011. Dynergy's operations involved burning coal to generate electricity. The process resulted in the generation of coal ash, which Dynergy dumped in man-made ponds at the site. Coal ash can contain a number of harmful byproducts that may adversely impact groundwater and the

nearby Middle Fork of the Vermilion River, Illinois' only national scenic river under the National Wild and Scenic Rivers Act. The river's banks continue to steadily erode, and Raoul's lawsuit alleges the proximity of the coal ash ponds in the flood plain further threatens the river's well-being. Bureau Chief Stephen Sylvester and Senior Assistant Attorney General Kathryn Pamenter are handling the case for Raoul's Environmental Enforcement Division.

Teatro ZinZanni Returns:

Cast Member Storm Marrero Talks New Role

By: Ashmar Mandou

Live comedy, music, and unique thrills once again returns to Chicago with Teatro ZinZanni beginning July 8 at the Chicago Theatre District. An incomparable experience, Teatro ZinZanni is a whirlwind of international cirque, comedy, cabaret served with a multi-course gourmet feast. As one of the most anticipated shows makes its return, we interviewed one of the newest cast members Storm Marrero, a Brooklyn native, in her role as Cleopatra. **Lawndale Bilingual News: I had the pleasure**

of experiencing Teatro ZinZanni, which instantly became one of my favorite shows; it was thrilling, hilarious, and unforgettable. As a new cast member playing the role of Cleopatra what are you looking forward to the most when Teatro ZinZanni returns to Chicago? Storm Marrero: I look forward to sharing the stage with a lot of amazing actors, dancers and specialty acts that I've admired for years. But more than anything, I look forward to performing for an audience again. I miss making people happy. **You are a Brooklyn**

native that has cultivated quite the career working alongside veteran opera singers at the University of Puerto Rico, releasing a record, and becoming the first Afro-Latin ringmaster for the Big Apple Circus 2019-2020 season. What has each experience meant to you personally and professionally? Coming from such an interesting background, being a part of such astounding career opportunities has given me an interesting perspective regarding my creativity. Each experience has allowed me to be even more appreciative

of my upbringing and the blessings I've been given. The culmination of all of that was being the first Afro-Latina (and only the 3rd woman) to be at the helm as the ringmaster for the Big Apple Circus in its 42 years running, before the lockdown.

When was the tipping point for you to decide to pursue a career in music? I've been a professional singer since the age of 18 and though I've always worked in the arts, I always had a day job. I decided on pursuing my career full time in 2016, at the age of 40. I saw myself investing so much of my time in work I hated, I made it my business to look at my career as my full-time work. So, I quit my day job and started living life as a working artist/working musician. It's trying because, as artists, there's no such thing as a sick-day or a day off. If you do not work, you do not get paid. So as an artist, I have to take extremely good care of myself and my instrument (my voice).

So, no hard partying, no hanging out late, no loud places. My life and work is my art.

What element of your musical style are you looking forward to sharing in Teatro ZinZanni?

To be perfectly honest, just being able to be around artists, being able to work in what I love! That's what I'm looking forward to the most!! I'm definitely looking forward to singing with my friend Michael Cunio, who is a powerhouse singer and part of my artistic family.

For kids who dream of having a career in music/theatre what advice can you give to them on how to prepare?

My advice; study absolutely everything! All the ins and outs of theater, all the musical styles under the sun. Even pick up on things that you never thought you'd do. I know so many singers and dancers that are fabulous costume designers, amazing photographers,

know about lighting and design. Make yourself indispensable, all while still honing your craft. And above all, believe in yourself. Believe it even if others don't see it. If it's as clear as day in your minds' eye, it's yours. No one can take it from you. Individual tickets, which include a four-course meal, are on sale now and range in price from \$119 - \$189. Front Row VIP tickets are available at a premium price. Limited à la carte "show-only" tickets will also be available for \$69. Individual tickets will be available by visiting zinzanni.co m/Chicago or by calling (312) 488-0900. Tickets are available now for groups of 10 or more by calling Broadway In Chicago Group Sales at (312) 977-1710 or emailing GroupSales@BroadwayInChicago.com. Teatro ZinZanni is located at Spiegeltent ZaZou, located on the 14th floor in the Cambria Hotel Chicago Loop, 32 W. Randolph.

Congressman García Applauds Passage of the Invest in America Act

Congressman Jesús “Chuy” García, a member of the House Committee on Transportation and Infrastructure, announced the passage of the *Investing in a New Vision for the Environment and Surface Transportation in America (INVEST in America) Act* earlier this week in a press release. Congressman García issued the following statement regarding the bill’s passage: “The INVEST in America Act is an ambitious package that will bring our nation’s infrastructure into the 21st century and is a massive leap forward in our urgent efforts to address the climate crisis. I’m

proud that many of my priorities are included in this bill, including record investments in our public transit and passenger rail, new requirements to reduce greenhouse gas emissions, the advancement of equitable transit-oriented development, and the creation of thousands of good-paying union jobs.” Berwyn Mayor Robert J. Lovero stated, “This project will significantly improve the streetscape while incorporating stormwater management elements in the design to address sewer back-ups into residences and businesses along 34th Street from Harlem Avenue to Ridgeland Avenue.

This corridor is heavily traveled with over 4,000 vehicles using this route a day, providing access to MacNeal Hospital as well as the PACE routes located on Harlem Avenue, Oak Park Avenue, and Ridgeland Avenue.” Permeable pavers and rain gardens will capture roadway and sidewalk run-off/pollutants while beautifying the area. The City of Berwyn has taken an active approach toward implementing green infrastructure into each project and development. The 34th Street Stormwater Concept Plan was a highly recommended project to pursue as part of the City’s

Stormwater Management Plan. For more information on this project, please

CDPH Announces Changes at City-Run Vaccination Sites

By: Ashmar Mandou

The Chicago Department of Public Health on

Wednesday announced plans to decommission a number of City-run vaccination sites and

stated their focus is now on hyperlocal distribution to reach Chicagoans who still need their

COVID-19 vaccine. "As our COVID-19 vaccination strategy continues to evolve, we know that hyperlocal efforts and meeting people where they are offer us the best chance to vaccinate even more Chicagoans," said CDPH Commissioner Allison Arwady, M.D. "I am very proud of our team and what we accomplished at these sites to move the city through this crisis." The Chicago State University drive-thru closed on Saturday, June 19, but there is still a walk-in vaccination site at CSU, open for appointments or walk-ups. Thursday, June 24, will be the final day of operations at the United Center vaccination site, run by the City of Chicago in

partnership with County and State partners. As the United Center closes, a vaccination site at Malcom X College will reopen on June 28, administering the Pfizer vaccine, operating Monday through Friday from 1:00 p.m. to 7:00 p.m. and Saturdays from 9:00 a.m. to 3:00 p.m. As the City switches from fixed vaccination sites, it continues to offer vaccine at dozens of neighborhood-based pop-up and mobile vaccination events, including at churches, food pantries, farmers markets, parks and beaches, CTA "L" stops and more. Visit [Chicago.gov/VaxCalendar](https://www.chicago.gov/VaxCalendar) to find a vaccination event in a community near you. In addition, COVID vaccines will be offered

at CDPH immunization clinics throughout the city when they re-open in July, and CDPH just announced the expansion of its At Home program and now anyone 12 and older can make an appointment to get vaccinated in their home. People can make an appointment by calling 312-746-4835 or going to www.chicago.gov/athome. More than 450,000 COVID-19 vaccine doses have been administered at the City-operated vaccine clinics since January. All COVID-19 vaccines are offered at no cost to everyone, no insurance or ID required. For information about COVID-19 vaccines in Chicago, visit [Chicago.gov/COVIDvax](https://www.chicago.gov/COVIDvax).

CDPH Anuncia Cambios en los Sitios de Vacunación Administrados por la Ciudad

Por: Ashmar Mandou

El Departamento de Salud Pública de Chicago anunció planes para el desmantelamiento de un número de sitios de vacunación administrados por la ciudad y declaró que su enfoque ahora está en la distribución hiperlocal para llegar a los habitantes de Chicago que todavía necesitan su vacuna COVID-19. "Mientras continúa evolucionando la estrategia de vacunación del COVID-19, sabemos que los esfuerzos hiperlocales y conocer a las personas donde están nos ofrece la mejor oportunidad de vacunar a más habitantes de Chicago", dijo la Comisionada de CDPH, Allison Arwady, M.D. "Estoy muy orgullosa de nuestro equipo y de lo que logramos en estos sitios para atender a la ciudad durante esta crisis". El drive-thru de

la Universidad Estatal de Chicago cerró el sábado 19 de junio, pero todavía hay un sitio de vacunación sin cita previa en CSU, abierto para aplicaciones o visitas sin cita previa. El jueves, 24 de junio, será el día final de operaciones del sitio de vacunas de United Center, administrado por la Ciudad de Chicago en colaboración con el Condado y socios estatales. Al cerrar el United Center, un sitio de vacunación en Malcom X College reabrirá el 28 de junio, administrando la vacuna Pfizer y operando de lunes a viernes, de 1:00 p.m. a 7:00 p.m. y los sábados, de 9:00 a.m. a 3:00 p.m.

A medida que la Ciudad cambia de sitios de vacunación fijos, continúa ofreciendo vacunas en docenas de eventos de vacunación móviles y emergentes en los vecindarios, incluso en iglesias, despensas

de alimentos, mercados de agricultores, parques y playas, paradas de la CTA "L" y más. Visite [Chicago.gov/vaxcalendar](https://www.chicago.gov/vaxcalendar) para encontrar un evento de vacunas en una comunidad cercana a usted. Además se ofrecerán las vacunas COVID en las clínicas de inmunización del CDPH en toda la ciudad cuando vuelvan a abrir en julio, y CDPH acaba de anunciar la expansión de su programa At Home y ahora cualquier persona de 12 años o más puede solicitar la vacunación en su hogar. La persona puede hacer una cita llamando al 12-746-4835 o visitando www.chicago.gov/athome. Más de 450,000 dosis de vacunas COVID-19 se ofrecen sin costo alguno a todos, no se necesita seguro ni identificación (ID). Para información sobre las vacunas del COVID-19 visite [Chicago.gov/COVIDvax](https://www.chicago.gov/COVIDvax).

Switching from Western Diet to a Balanced Diet May Reduce Skin, Joint Inflammation

The secret to healthier skin and joints may reside in gut microorganisms. A study led by UC Davis Health researchers has found that a diet rich in sugar and fat leads to an imbalance in the gut's microbial culture and may contribute to inflammatory skin diseases such as psoriasis. The study, published in the *Journal of Investigative Dermatology*, suggests that switching to a more balanced diet restores the

gut's health and suppresses skin inflammation. "Earlier studies have shown that Western diet, characterized by its high sugar and fat content, can lead to significant skin inflammation and psoriasis flares," said Sam T. Hwang, professor and chair of dermatology at UC Davis Health and senior author on the study. "Despite having powerful anti-inflammatory drugs for the skin condition,

our study indicates that simple changes in diet may also have significant effects on psoriasis." Their study showed that eating a diet high in sugar and fat for 10 weeks predisposed mice to skin and joint inflammation. Mice that were switched to a balanced diet had less scaling of the skin and reduced ear thickness than mice on a Western diet. The improvement in skin inflammation for mice taken off the Western

diet indicates a short-term impact of the Western diet on skin inflammation. This

suggests that changes in diet could partially reverse the proinflammatory

effects and alteration of gut microbiota caused by the Western diet.

Cambiar la Dieta Occidental por una Dieta Equilibrada Puede Reducir la Inflamación de la Piel y las Articulaciones

El secreto de una piel y articulaciones más saludables puede estar en los microorganismos intestinales. Un estudio conducido por investigadores de UC Davis Health, descubrió que una dieta rica en azúcar y grasas conduce a un desbalance del cultivo microbiano intestinal y puede contribuir a enfermedades inflamatorias de la piel, como la psoriasis. El estudio, publicado en *Journal of Investigative Dermatology*, sugiere que cambiar a una dieta más balanceada restaura la salud del intestino y suprime la inflamación de la piel. "Estudios anteriores han mostrado que la dieta Occidental, caracterizada

por su alto contenido de azúcar y grasa, puede conducir a una considerable inflamación de la piel y brotes de psoriasis", dijo Sam T. Hwang, profesor y director de dermatología en UC Davis Health y autor principal del estudio. "A pesar de las poderosas medicinas anti-inflamatorias para la condición de la piel, nuestro estudio indica que simples cambios en la dieta pueden tener considerables efectos en la psoriasis". Su estudio mostró que llevar una dieta alta en azúcar y grasa por 10 semanas predispone a los ratones a inflamación de la piel y las articulaciones. Los ratones que se cambiaron a una dieta

equilibrada tienen menos descamación de la piel y un menor grosor de oreja que los ratones con una dieta occidental. La mejora en la inflamación de la piel de los ratones que se retiraron de la dieta occidental indica un impacto a corto plazo de la dieta occidental sobre la inflamación de la piel. Esto sugiere que los cambios en la dieta podrían revertir parcialmente los efectos pro-inflamatorios y la alteración de la microbiota intestinal causada por la dieta occidental.
