

Homeowners: Are you missing exemptions on your property tax bill?

As homeowners in Cook County receive their 2020 Second Installment Tax Bills (tax bill) in the mail they are encouraged to look at the bottom left corner to ensure that the correct exemption(s) are applied. If a homeowner believes they are entitled to an exemption that is not reflected on their tax bill, they can apply for what is called a Certificate of Error. The Certificate of Error process provides

homeowners an opportunity to redeem missing exemptions for up to three years in addition to the current tax year. Homeowners can now apply for the 2020, 2019, 2018, and 2017 tax years. Certificate of Error applications with copies of supporting documentation can be filed online, by mail, or in person. Please see the full list of property tax exemptions administered by the

Assessor's Office at www.cookcountyassessor.com/emptions. This year, many exemptions auto-renewed to make the process more convenient for homeowners. In addition to the Homeowner and Senior exemptions, the Assessor's Office processed auto-renewals for the "Senior Freeze", Veterans with Disabilities, and Persons with

Disabilities exemptions. In total, more than 1.1 million exemptions were auto-renewed, which provided millions of dollars in tax relief to homeowners in Cook County. As a reminder, homeowners are responsible for paying the entirety of the tax bill to the Cook County Treasurer's Office by October 1, 2021. If the Certificate of Error application is granted, either a corrected

tax bill or a refund for the difference will be issued. Please download a copy of the new brochure, *How to Apply for Missing Property Tax Exemptions* that is available in six languages.

Safe Routes to School Project Proposals Sought

With summer break coming to an end and students hitting the books, the Illinois Department of Transportation announced that it is seeking proposals for projects that will help children walk and bike to school through the Safe Routes to School program. “Children who walk or bike to school from an early age have a leg up on creating an active, healthy lifestyle that benefits both them and the

environment,” said Illinois Transportation Secretary Omer Osman. “We are proud to offer this program to help ensure every student has the opportunity to take

advantage of these obvious benefits by providing safe and enjoyable routes to school.” Administered by IDOT using federal funds, Safe Routes to

School supports projects that improve safety and reduce traffic in areas around elementary and middle schools. The new grant cycle will

distribute a total of \$12 million for infrastructure projects only. Projects can include new sidewalks, speed monitoring systems and improvements to make routes more accessible for individuals with disabilities. A 20 percent local match is required, with a maximum award of \$250,000. Successful applications must demonstrate how the projects will encourage

students to walk or bike. Eligible applicants include school districts, local governments, planning organizations and nonprofit associations. The deadline to apply is Sept. 30. The awards will be announced early next year. For more information, including selection criteria, visit <https://idot.click/SRTS> or email DOT.SafeRoutes@Illinois.gov.

Se Buscan Propuestas de Proyectos Para Rutas Seguras a la Escuela

Con el término de las vacaciones de verano y los estudiantes volviendo a los libros, el Departamento de Transporte de Illinois anunció que busca propuestas para proyectos que ayuden

a los niños a caminar y llegar en bicicleta a la escuela a través del programa Rutas Seguras a la Escuela.” Los niños que caminan o llegan en bicicleta a la escuela desde temprana edad

tienen la ventaja para crear un estilo de vida activo y saludable que los beneficia tanto a ellos como al medio ambiente”, dijo el Secretario de Transportes de Illinois, Omar Osman. “Estamos orgullosos de ofrecer este programa para ayudar a garantizar que todo estudiante tiene la oportunidad de aprovechar estos beneficios obvios ofreciendo una ruta a la escuela, divertida y

segura.” Administrada por fondos federales de IDOT, Rutas Seguras a la Escuela apoya proyectos que mejoren la seguridad y reduzcan el tráfico alrededor de las escuelas elementales y medias.

El nuevo ciclo de subsidios distribuirá un total de \$12 millones solo en proyectos de infraestructura. Los proyectos pueden incluir nuevas banquetas,

sistemas para vigilar la velocidad y mejoras para hacer las rutas más accesibles para personas discapacitadas. Se requiere una coincidencia local del 20 por ciento, con un premio máximo de \$250,000. Las solicitudes exitosas deben demostrar como los proyectos animarán a los estudiantes a caminar o andar en bicicleta. Los solicitantes elegibles incluyen a

distritos escolares, gobiernos locales, organizaciones de planeación y asociaciones no lucrativas. La fecha límite para hacer la solicitud es el 30 de septiembre. Los subsidios serán anunciados a principio del año próximo. Para más información, incluyendo el criterio de selección, visite <https://idot.click/SRTS> o vía email DOT.SafeRoutes@Illinois.gov.

Gov. Pritzker Signs Legislation to Protect Children with Severe Allergies

Governor JB Pritzker signed legislation that establishes the Childhood Anaphylactic Policy, creating added safety measures for students with life-threatening allergies. House Bill 102 provides guidance to school districts and daycares regarding

anaphylactic reactions. In an effort to better help schools protect all students, House Bill 102 requires the Illinois Department of Public Health (IDPH) to establish anaphylaxis policies and procedures for school districts and daycare settings. To relay the most

accurate information, IDPH will update the policies every three years in consultation with specialists. The information will be displayed online on the IDPH website, as well as provided to each school district, charter school and day care center within six

months after effective date of becoming law. To continue to help educate caregivers about the severity of food allergies and anaphylaxis, schools and daycare centers must communicate the policies annually to parents. IDPH will also work with the Illinois State Board of

Education (ISBE) and the Illinois Department of Children and Family Services (DCFS) to establish the most effective policies and procedures. According to the Allergy & Asthma Network, in the United States one in 12 children have food allergies, yet 25 percent

of reactions in school go without a previous diagnosis. HB 102 is based on Elijah's Law, which was passed in New York in 2019. Similar to Elijah's Law, HB 102 ensures that all children and students are safe, regardless of socioeconomic conditions. HB 102 is effective July 1, 2021.

El Gobernador Pritzker Firma Legislación para Proteger a los Niños de Alergias Severas

El Gobernador Pritzker firmó una legislación que establece la Política Anafiláctica Infantil, creando más medidas de seguridad para estudiantes con alergias que amenazan sus vidas. El Proyecto 102 de la Cámara ofrece guía a los

distritos escolares y guarderías sobre las reacciones anafiláticas. En un esfuerzo por mejor ayudar a las escuelas a proteger a todos los estudiantes, el Proyecto 102 de la Cámara requiere que el Departamento de Salud Pública de Illinois

(IDPH) establezca políticas anafiláticas y proced-

Senator Fine Legislation to Expand Birth Center Accessibility Signed into Law

Pregnant women will have more options on where to deliver under a new law that establishes a path to permanent licensure for freestanding birth centers. “Expecting mothers should have the ability to choose their birth style without limitations caused by a lack of freestanding birth center licenses in their area,” Senator Laura Fine said. “Whether a pregnant woman is seeking a certified nurse midwife or they simply want a lower-cost birthing style, lifting the licensure cap for freestanding birth centers will help increase access to birth centers across Illinois.” Senator Fine’s legislation creates the Birth Center Licensing Act, lifting the current cap on the number of freestanding birth center licenses, so more women, especially those in marginalized communities, have access to the birthing style they prefer. Freestanding birth centers will still be regulated under the Alternative Health Care Delivery Act, and licenses will have to be renewed every year. Freestanding birth centers are a lower-cost option for expectant mothers seeking a more homelike approach to childbirth who do not want a hospital setting. There are currently just two freestanding birth centers in Illinois that provide this style of care. House Bill 3995 was signed into law last Friday and takes effect immediately.

imientos para los distritos escolares y las guarderías. Para rendir la información más exacta, IDPH actualizará las políticas cada tres años en consulta con varios especialistas. La información será publicada en línea en la red de IDPH, así como enviada a cada distrito escolar, escuela charter y centro de guardería dentro de seis meses después de la fecha efectiva en que se convierta en ley. Para continuar ayudando a educar a los cuidadores sobre la severidad de las alergias por alimentos y la anafiláctica, las escuelas y centros de cuidado diurno deben comunicar anualmente las políticas a los padres. IDPH trabajará también con la Junta de Educación del Estado de Illinois (ISBE) y el Departamento de Servicios Infantiles y Familiares de Illinois (DCFS) para establecer las políticas y procedimientos más efectivos. De acuerdo a la Red de Alergias & Asma, en Estados Unidos, uno de cada 12 niños tiene alergia a la comida, sin embargo el 25 por ciento de las reacciones en la escuela pasan sin previo diagnóstico. La HB 102 está basada en la ley de Elijah, que fue aprobada en Nueva York en el 2019. Similar a la Ley de Elijah, la HB 102 garantiza que todos los niños y estudiantes están seguros sin importar sus condiciones socioeconómicas. La HB 102 entra en efecto el 1º de julio del 2021.

friante palabra Candyman cinco veces, apareciendo el ícono mismo para dar un verdadero susto a los entusiastas del cine. Jordan Peele, ganador del Oscar, reimagina esta leg-enda clásica urbana con la ayuda del cineasta Nia DaCosta (Little Woods, próximo Capitán Marvel 2) para dar a la película un sentir contemporáneo que seguro aterrorizará a una nueva generación de amantes del terror.

En la actualidad, una década después de la caída de la última de las torres Cabrini, el artista visual Anthony McCoy (Yahya Abdul-Mateen II; Watchmen, Us de HBO) y su socia, la directora de la galería Brianna Cartwright (Teyonah Parris; If Beale Street Could Talk, The Photograph), se cambió a un condominio en Cabri-ni, ahora gentrificado e irreconocible y habitado por milenios acomodados. Con la carrera de pintura de Anthony al borde del estancamiento, un encuentro casual con un veterano de Cabrini-Green (Colman Domingo; Euphoria de HBO, Assassination Nation) expone a Anthony a la naturaleza trágicamente desgarradora de la historia real y el comportamiento de Candyman. Ansiosos de mantener su estado en el mundo del arte de Chi-cago, Anthony comienza a explorar estos macabros detalles en su estudio como molienda fresca para pin-turas, abriendo sin saberlo una puerta a un pasado complejo que desentraña su propia cordura y desata una aterradora ola de vio-lencia que lo pone camino a un enfrentamiento con el destino. Survey Shows 1 in 5 College Students Will Transfer if COVID-19 Vaccines are Mandated

Intelligent.com, a resource for online degree rankings and higher education planning, has published findings from a new survey that examines attitudes toward vaccine requirements at colleges and universities. Research experts analyzed responses from 1,250 American college students. The study indicates that 20 percent of students who oppose a vaccine mandate will transfer to another school. Thirty-one percent say they will only enroll in virtual classes, and 15 percent say they will claim a religious or medical exemption. The main reason cited among students who are against mandatory vaccination is that it's a violation of individual freedom.

Conversely, 70 percent of students surveyed say colleges should require vaccines for in-person attendance. Thirty percent of students support mandatory vaccination without any exemptions, while 27 percent believe institutions should approve medical exemptions. Thirteen percent of respondents support both medical and religious exemptions. Survey data shows that 1 in 4 students

oppose vaccine mandates because they don't believe

it's safe or effective. Eleven percent of respondents

believe young people do not get seriously ill or die from the virus, and 10 percent say they cannot afford it. Students also cited other COVID-19 misinformation, including the vaccine is made of fetal tissue from aborted babies and contains a microchip tracking device.

Intelligent.com created and paid for this study, which was administered via the online survey

platform Pollfish. On May 15, 2021, the survey was distributed to current college students and included questions about their COVID-19 vaccine status and their views on school policies mandating

students be vaccinated to attend in-person classes. To access the complete report, please visit: <https://www.intelligent.com/1-in-5-college-students-opposed-to-covid-vaccination-will-transfer-if-mandated/>
