Chicago Children's Choir Changes Name to Uniting Voices Chicago

Chicago Children's Choir is now Uniting Voices Chicago, a new name that better reflects the organization's long-term mission to inspire

and change lives through the power of music. Over the course of 65 years, Uniting Voices Chicago has grown from a single choir in Hyde Park into an

internationally renowned music nonprofit that has redefined the youth choral arts and transformed the lives of more than 50,000 young Chicagoans who

have become leaders in a wide array of fields all over the world. This evolution is a crucial step in both honoring the organization's illustrious legacy while

propelling it into the future. In celebration of its new identity, Uniting Voices Chicago hosted a launch event on October 1 at Navy Pier's Aon Grand

Ballroom. The event featured the world premiere of the new single, "United," and a free concert, open to the public, performed by

Travelers are encouraged to share their fall color photos all season long using the #EnjoyIllinois hashtag to be featured on EnjoyIllinois.com. The new Fall Colors

Trip Planner also includes a variety of fall travel trip itineraries created to highlight must-visit sights and attractions that are unique to Illinois. A few highlights include:

- **Great Pumpkin Country** - Discover some of central Illinois' fun-filled

agritourism destinations for families to enjoy like the Great Pumpkin Patch in Arthur, picking apples at

Curtis Orchard and a visit to the state's only Dark Sky Park in Champaign. To view the 2022 Falls

Prevención al Cáncer de Mama

Por: Ashmar Mandou

Octubre es el Mes de Concientización del Cáncer de Mama y si usted está preocupada de si desarrollará dicho cáncer, debe estar preguntando que pasos preventivos puede dar.

Aunque algunos factores de riesgo, incluyendo la historia familiar no pueden cambiarse, hay unos cuantos cambios de estilo de vida que pueden ayudarle a disminuir el riesgo.

- Mantenga un peso saludable.** Si su peso es

saludable, trate de mantener ese peso. Si necesita perder peso, pregunte a su doctor que estrategias saludables puede tomar para lograrlo. Reduzca el número de calorías que come cada día y aumente lentamente la cantidad de ejercicio.

- Manténgase físicamente**

activo. La actividad física puede ayudarle a mantener un peso saludable, que le ayude a prevenir el cáncer de mama. La mayoría de adultos saludables esperan hacer por lo menos 150 minutos a la semana de actividad aeróbica moderada o 75 minutos de actividad aeróbica

vigorosa.

- Ser amamantado.** El ser amamantado puede jugar un papel importante en la prevención del cáncer de mama. Mientras más tiempo sea amamantado, mayor la protección.

- Limite el alcohol.** Mientras más alcohol tome, mayor el riesgo

de desarrollar cáncer de mama. La recomendación general – basada en investigaciones sobre los efectos del alcohol en el riesgo del cáncer de mama – es limitarse a no más de una bebida al día, ya que incluso pequeñas cantidades aumentan el riesgo.

Breast Cancer Prevention

By: Ashmar Mandou

October is Breast Cancer Awareness Month and if you're concerned about developing breast cancer, you might be wondering about preventive steps you can take. Although some risk factors, including family history cannot be changed, there are a few lifestyle changes that can help to lower your risk.

•**Maintain a healthy weight.** If your weight is healthy, work to maintain that weight. If you need to lose weight, ask your

doctor about healthy strategies to accomplish this. Reduce the number of calories you eat each day and slowly increase the amount of exercise.

•**Be physically active.** Physical activity can help you maintain a healthy weight, which helps prevent breast cancer. Most healthy adults should aim for at least 150 minutes a week of moderate aerobic activity or 75 minutes of vigorous aerobic activity weekly, plus strength training at least twice a week.

•**Breast-feed.** Breast-feeding might play a role in breast cancer prevention. The longer you breast-feed, the greater the protective effect.

•**Limit alcohol.** The more alcohol you drink, the greater your risk of developing breast cancer. The general recommendation –based on research on the effect of alcohol on breast cancer risk—is to limit yourself to no more than one drink a day, as even small amounts increase risk.

Sinai Chicago Receives HHS Grant to Expand Community Health Workforce

Sinai Chicago has received a nearly \$3 million grant from the U.S. Department of Health and Human Services (HHS), Health Resources and Services Administration, to fund expansion of its Sinai Urban Health Institute (SUHI) community health worker (CHW) training program. The grant, which is the largest ever for SUHI, is part of more than \$266 million awarded by HHS through the American Rescue Plan to grow the community and public

health workforce. CHWs are trusted healthcare messengers and navigators who live and work in the communities they serve. They connect individuals and families with the resources they need to manage their care and treatment for a variety of conditions, ranging from chronic disease to mental health to COVID-19. The HHS grants are a new multi-year program to support training and apprenticeship initiatives for an estimated 13,000 CHWs across the

country. SUHI has over 20 years of experience in developing, implementing, evaluating and scaling CHW interventions. SUHI's Center for CHW Research, Outcomes & Workforce Development (CROWD), is leading the charge towards advancing social justice and promoting health equity with a deliberate focus on recruitment, training and developing career pipelines/pathways for CHWs. El Coro de Niños de Chicago Cambia de Nombre a Chicago Uniendo Voces

El Coro de Niños es ahora Uniting Voices Chicago [Chicago Uniendo Voces], nuevo nombre que refleja mejor la misión a largo plazo de la organización, de inspirar y cambiar las vidas a través del poder de la música. En el curso de 65 años, Uniting Voices Chicago ha crecido de un sencillo coro en Hyde Park a una organización musical no lucrativa de renombre internacional que ha redefinido el arte del coro juvenil y transformado la vida de más de 50,000 jóvenes residentes de Chicago que se han convertido en líderes en una amplia variedad de campos en todo el mundo. Esta evolución es un paso crucial tanto en honrar el ilustre legado de la organización como en su proyección hacia el futuro. En celebración de su nueva identidad, Uniting Voices Chicago ofreció un

evento de lanzamiento el 1º de octubre en el Aon Grand Ballroom del Navy Pier. El evento presentó la première mundial del nuevo sencillo, "United," y un concierto gratuito abierto al público, interpretado por cantantes de los programas después de la escuela de Uniting Voices Chicago. Loretto Hospital to Offer Free Mammograms throughout October

In recognition of Breast Cancer Awareness Month, Loretto Hospital is offering free mammograms for uninsured and underinsured residents of the Austin community throughout the month of October. Breast cancer is by far the most common cancer among all women. While the incidence of breast cancer is slightly lower among Black women than their white counterparts, Black women have a higher rate of breast cancer deaths – possibly because cancers tend to be detected at a later stage in Blacks than whites.

The five-year survival rate for Black women diagnosed with breast cancer is 71 percent, compared to 87 percent for white women. The West side hospital offers state-of-the-art breast tomosynthesis technology, which utilizes low-dose x-rays to produce a three-dimensional image of the breast tissue, thus helping radiologists detect cancer when it is most treatable. This Food and Drug Administration-approved technology is considered superior to conventional 2D mammography alone, especially for women

with dense tissue. The 3D images can separate breast tissue that may appear overlapping in 2D imaging. Free screening mammograms are available to Austin residents living in the 60651, 60644, 60624, 60623 and 60612 zip codes. Women outside these zip codes can take advantage of Loretto's reduced rate, \$75 mammograms throughout the month of October. Certain restrictions apply. For additional information, call 833-TLH-LOVE or visit www.lorettohospital.org.

October is College Changes Everything Month in Illinois

October is College Changes Everything® (CCE) Month in Illinois, when the Illinois Student Assistance Commission (ISAC) teams up with high schools and community partners to support students in completing their college and financial aid applications. During CCE Month and the Fall CCE Campaign from Labor Day through

Thanksgiving, ISAC and its partners provide an intensive schedule of free college and financial aid application completion workshops available statewide. That's especially important this year, as students will see changes in the Free Application for Federal Student Aid (FAFSA®) that will begin to simplify the application,

and there will be expanded financial aid eligibility for some students. The 2023-24 FAFSA and the Alternative Application for Illinois Financial Aid are available now. Among the changes to the 2023-2024 FAFSA form are the removal of the question related to the requirement that students identified as male at birth register for Selective Service before

the age of 26 to qualify for federal student aid. Questions related to drug

convictions have also been removed from the FAFSA. For more information, visit

www.isac.org/FAFSA-Completion.
